So I did coke with an "elite" and they loose lipped it big time.

So I did coke with an "elite" and they loose lipped it big time.

They were inebriated and nearly about to pass out, son of an ultra-high net worth individual. He wasn't very coherent until after a line. Then says 'I'm gonna tell you some fukt up shit man'

Takeaways from his further slurred barrage of weirdness:

-The vax is a de-population tool.

-The mrna vax has always been about programmable humans. Getting needles in arms to re-write human biology.

-After booster 4 something called igg4 is permanently active. I am no scientist but can remember igg4 cause my dogs name is iggy. He says it's like allergy shots but for the covid spike. It tells your body there is nothing wrong with the covid spike and to leave it alone. He says if you look into it, you will see this is already known.

-The stage is now set, he says over 3 billion people now have adequate levels of igg4 and the final phase is close. He said those in the know call it "the process". It is to reduce the human population by 5 billion (3 billion from igg4 programming and 2 billion from the fall out of 3 billion deaths).

-He said late 2023 the new and final covid strain will be released. This strain will have over 90% fatality but only to those who have igg4 in their bodies. They will mount NO immune response to this deadly strain. Unvaxed like him will basically have a mild cold.

-He said 'the process' will do a full psychological warfare media blitz, claiming the vax has caused igg4 and anyone vaxed has a 90% chance of dying from this strain. They will claim all governments knew and misled their people. It will be designed to cause mass panic and turn all citizens against their governments. This will ensure cities burn during the viral outbreak and emergency services are non-existent.

Billions will die.

My friends, I've never sobered up so fast in all my life. I left the party somewhat stunned. Who could make this up?

Sounds very plausible....

"If we are peaceful, if we are happy, we can smile and blossom like a flower, and everyone in our family, our entire society, will benefit from our peace."
Thich Nhat Hanh, Being Peace

"But ask the animals, and they will teach you, or the birds in the sky, and they will tell you; or speak to the earth, and it will teach you, or let the fish in the sea inform you." - Job 12:7,8

The story checks out... I saved this article from a few months ago that talks extensively about igg4 and the permanent damage the vax does to the vaxxed's immune systems:

I've often thought that. And it was so universal, every country put so much pressure, it made no sense at all.

Just from the point of view that it was a totally new medical technology that altered cell protein production, that alone was a huge red flag. At the very least they should have only given it to half the medical staff just in case it proved dangerous but no, they made sure the doctors and nurses were the first in line and that anyone smart enough to refuse would be fired.

Something's way wrong.

No vak. No Djoke.

It's not just a leaf saying this. This article from Dec 2022 says the same thing and how fucked the situation actually is:

I'll believe it when I see it. Glad I didn't take any vaccine bullshit, but I don't know about this final strain and iggy.
